“...THE HEARTBEAT OF **YOUR COMPANY**...”

...is the **TALENT WE** have on our books...”

One well-placed employee can be the cause of a company's profits skyrocketing.

And the fee for having hired these people pales to insignificance when compared to the Contributions they make to the bottom line.

WHY PENNY-PINCH ON WHAT IS EVERY COMPANY'S LIFEblood...TALENT ACQUISITION

A RECRUITER'S STOCK-IN-TRADE IS THEIR INTEGRITY AND THEIR REPUTATION FOR FINDING SOMEONE BETTER THAN A COMPANY COULD HAVE FOUND FOR THEMSELVES

Since matriculating at Queens High School (Kensington, Gauteng), Kim spent eight years in Corporate Recruitment in Gauteng in the field of abrasive manufacturing and afterward, recruitment in chemical engineering.

Next was "Randall Placements", a personnel agency Kim started in the Isando / Spartan suburbs, focusing her skill towards customers in and around this large industrial and office sector, recruiting staff to fill vacancies in all disciplines.

A relocation to Cape Town forced a decision to open her next business. This time, specialising in a niche market, hence the focus on placing 'MEDICAL SALES REPRESENTATIVES' today.

Over the past 13 years, Kim has successfully managed to achieve her goal of positioning Career 2000 in the Western Cape market.

A forward thinking, top agency, where all efforts have been guided by her previous experience as a personnel officer and innovator.

What our KEY Clients say...

"Career 2000 and SA Biomedical have had a long & extremely fruitful working relationship over the past 8 years.

Career 2000 has proved to be one of our top recruitment companies in all specialties and at all levels of our business. An important aspect of their success has not only been to fulfill our job specs but also, (having built a sustainable relationship with us) ensuring that the culture fit is met.

The caliber of the candidates has always been "top drawer" not to mention the superb after sales service and would therefore highly recommend Career 2000 to any of my associates."

There are occasional pearls through various other sources and methods (and someone inevitably wins the Sweepstakes too) but you have to shuck an awful lot of smelly oysters to find them. A Specialised Recruiter such as CAREER 2000 only gives you oysters proven to contain pearls. Your only job is to determine which pearl is the best.
